

O. E. S. INSTALLATION

GLENDAL "STARS" PARTICIPATE IN BRILLIANT FUNCTION AT BURBANK

Burbank's Masonic Hall was the scene of quite a brilliant function last night when officers of the newly organized Eastern Star chapter were installed with impressive ceremonies and in the presence of a large number of guests from abroad. Mrs. Lewis, Worthy Matron of one of the Los Angeles chapters, was the installing officer, Mrs. Holman of Pacific Chapter acted as Marshal, Mrs. Dan Campbell, of this city, Past Grand Chaplain, served as chaplain, and Brother Pierce of Los Angeles, was the presiding officer. The work was beautifully performed, and in all respects it was a delightful affair socially and otherwise. The hall, which had been beautifully decorated and furnished, made a fine setting for the function. The guest list from Glendale included Mr. and Mrs. Dan Campbell, Mr. and Mrs. A. M. Besmon, Mrs. Pollock, Junior Worthy Matron, Mrs. Phillips and others. Gifts were presented, and Mrs. Campbell was the recipient of a very beautiful bouquet of carnations and sweet peas.

A BUSY ARCHITECT

Inglewood is to have a fine new building to house a savings bank to be operated in connection with the First National Bank of that city. Alfred F. Priest of this city has been commissioned to prepare the working plans for a structure 45x50, with a facing of glazed brick, plastered columns, composition roofing, cement floors, etc. He has also prepared the plans for the house to be erected by C. O. Pulliam on the property recently purchased on Pioneer Drive. It will have eight rooms, redwood siding, shingled roof, hardwood floors, two tiled bathrooms, a furnace and automatic water heater. He is also preparing plans for a six-room beach cottage to be built for Mrs. Mary Strain of Placentia. The living room will be two stories in height, there will be a stone fireplace in it and the exterior will be of shakes. He has also prepared plans for an eight-room house to be built for W. G. O. Fox on Edgemont St., and for a one-story on Grand Avenue between Ninth and Tenth for Mrs. Leonard.

MINNESOTA VISITORS

Mr. and Mrs. J. H. Prothero and daughter, Margaret, of Minneapolis, are guests in the home of Mr. and Mrs. R. S. Todd while Mr. Todd is in Detroit attending a convention. It is their first trip to Southern California. Heretofore they have been in the habit of spending winters in Florida. They like it very much and Mrs. Prothero, who is looking for the arrival of her father from the frozen East, is hoping it will be ninety in the shade by the time he gets here. Mr. Todd writes: "Oh, for good old Southern California. The weather is chilly and hotels are only partially heated."

CANNADAYS SELL AND BUY

Eldon Cannaday and wife who drove through from Muncie, Ind., to Glendale, to visit a brother living here, and soon after bought George Dodson's property at 414 West Windsor Road, recently sold the place to W. C. Williams of Hollywood, who will rent his property there and occupy the Glendale home. The Cannadays have bought Mrs. Galbraith's fine property at 211 West Windsor Road and will move into the house next Monday.

GETTING HIS GOAT

HIGH MILK PRODUCTION MAIN CONSIDERATION OF HOUSEHOLDER BUYING A NANNY

From \$150 to \$200 is considered a fair price for an average cow these days, a cow that will give as high as five gallons of milk a day. But when it comes to paying as much as \$175 for just a goat, that gives at the outside, four and one-half quarts a day, it seems preposterous to think about. Yet Ed Martner, ex-employee of the city hall, who raises goats as a side line, both for pleasure and profit, on the little ranch at 1329 East California Avenue, says he has sold them for that price, though the average is much lower. And it has been done almost solely through small classified ads in the Evening News. He has Saanen, Toggenburg and Nubian stock and cares for them (Continued on Page 3)

MUSIC SECTION

MEMBERS ENJOY FINE PROGRAM OF RUSSIAN MUSIC AT HOME OF MRS. BOSSERMAN

The Music Section of the Tuesday Afternoon Club met at the home of Mrs. Le Roy Bosserman on Central Avenue, Friday afternoon, with the curator, Mrs. C. A. Parker in the chair. After a business session at which it was voted to turn over \$100 of the proceeds of the entertainment given by the section to the Club House fund, the meeting was given into the charge of Mrs. Bosserman, who had arranged a program of Russian music and who read a fine paper on the subject, making interesting comments as she touched upon the various interpretations of the composers.

Wienawski's "Legende" and Moskowski's "Seranata" were delightfully given upon the violin by Mrs. Thompson of Beverly Hills, accompanied by Mrs. Bosserman.

Miss Mildred Pray followed with Rachminoff's Elegy and Arensky's Etude; and records of Russian compositions were played throughout the afternoon. Particularly enjoyable was the lullaby from "Erminie," as sung by Frieda Hempel.

At the close of the program delicious refreshments were served by the hostess.

About thirty members and their guests were present. The next program will be in charge of Mrs. Colleen Cable.

CENTRAL AVENUE P. T. A.

Central Avenue Parent Teachers' Association met on Thursday afternoon and a goodly number of members braved the cold north wind to hear Mrs. Moyle, the speaker of the afternoon, outline the needs of the High School. She told us of the different building sites proposed and their respective suitability. Each was urged to register in order that she might be able to vote for the bonds when the time comes.

Mrs. Campbell, the legislative chairman, asked for aid from the association for the El Retiro Home for Girls, and it was voted to contribute five dollars for their use.

Miss McIntyre's plea for new phonograph records was met by a generous appropriation.

Tea and cakes were a pleasing accompaniment to the last half hour of the meeting.

BURTONS RETURN FROM NORTH

Mr. and Mrs. J. W. M. Burton of Montrose, who went North last week for business and pleasure, returned Monday reporting a very successful trip from both the business and pleasure standpoint. Mrs. Burton found her brother, who lives in Watsonville, very much improved in health and had a fine visit with him. From Watsonville they went to Gilroy, where they saw old friends and both going and coming they stopped for a night at the home of Rev. Harvey Dunn, a former resident of Glendale, now living in San Luis Obispo. He has bought property in Pasadena and is returning to Southern California.

PIONEER CLUB ENTERTAINED

Members of the Pioneer Club and a few other intimate friends were delightfully entertained Friday afternoon by Mrs. A. R. Chappell at her new home in Atwater Tract, the party being a sort of housewarming and the guests bestowing a kitchen shower upon their hostess. It was quite an informal social afternoon, and dainty refreshments were served by Mrs. Chappell. The guest list included: Mesdames Hoagland of Venice, Whitaker, Andree, Potter, Van Dyke, Stewart and Franklin.

IMPROVEMENT IN GRANDVIEW DISTRICT

The Grandview district, annexed to Glendale last year, is sharing in the present building activities in the greater city. P. C. Ayers is having put up on Tenth Street, which runs west from Grandview Avenue, a comfortable residence and a group of up-to-date poultry houses, on his six-acre ranch, at a cost of \$7000. This will then be the largest poultry ranch in Glendale.

POLES TO BE REMOVED

The Pacific Telephone and Telegraph Company has been granted permission to remove from the streets 140 poles which are no longer needed since the consolidation of the Home and Sunset systems a year ago.

HOUSE AGAIN REJECTS BERGER

VOTES TO REFUSE HIM HIS SEAT BECAUSE OF HIS DISLOYALTY AND INELIGIBILITY

(Special Service to Glendale Evening News)

WASHINGTON, Jan. 10.—The House for the second time in two months today voted to refuse Victor L. Berger his seat in the House.

Berger had conferred with Leader Gillette just previous to the vote and had expressed confidence that he would be seated. Extra guards were stationed in the galleries of the House to guard against any demonstration or disturbance.

Representative Ballinger, who offered the resolution refusing to seat Berger, declared that Berger was not being excluded because he is a socialist but because the House believes he is disloyal and is ineligible to his seat under the constitution.

TRAGIC DEATH OF WAR HERO

Y. M. C. A. TELEGRAMS FROM TUCSON TELL OF MURDER OF "GUNNER DEPEW" BY MEXICAN BANDITS

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 10.—A telegram from Secretary Burnett of the Tucson, Arizona, Y. M. C. A., today said that Albert N. Depew, better known as "Gunner Depew," a war hero, had been murdered near Tucson in a fight with Mexican outlaws. Depew had started alone on a prospecting trip in the vicinity of the border.

The telegram said that Depew died fighting. He fought in the French army at the outbreak of the war in 1914 and after being wounded in Flanders was transferred to the French navy and participated in the Dardanelles campaign, winning the French war cross and suffering over twenty wounds. He was discharged and invalided back to this country and then toured the United States for the Liberty loans.

For a time he was idolized by society circles in New York, Chicago and Los Angeles, but he preferred the life of a wanderer.

PEACE TREATY EFFECTIVE

MARSHAL FOCH DECLARES WORLD MUST DRAW A LESSON FROM STRUGGLE JUST FINISHED

(Special Service to Glendale Evening News)

PARIS, Jan. 10.—The peace treaty became effective at 4:11 o'clock this afternoon when the allied and German representatives exchanged ratifications of the Treaty of Versailles. The ceremony took place in the cloak room of the French Foreign Office.

Previous to the exchange of ratifications the Germans signed the protocol covering indorsement of the treaty terms. American Ambassador Wallace was not in attendance. Premier Clemenceau, in closing the meeting, said:

"The protocol ending the armistice has been signed, ratifications have been exchanged and the treaty is effective immediately."

Following the ceremonies several of the allied representatives bowed to the Germans but did not shake their hands.

Marshal Foch, in an interview after the ceremonies, declared: "It would be foolish to believe that there will be no more wars merely because we do not wish to fight. France and the world must draw a lesson from the struggle we have just finished. It must be a lesson of prudence with the best of good will. War is not always avoidable."

MORE DESTRUCTION THREATENS MEXICO

VOLCANIC OUTBREAK THREATENS THE DISTRICT SOUTHWEST OF JALAPA WHERE DEATH TOLL IS HEAVY

(Special Service to Glendale Evening News)

MEXICO CITY, Jan. 10.—A further volcanic outbreak is threatening the district southwest of Jalapa. The earthquakes of volcanic origin have already taken a heavy toll. The volcano Cosate de Perote, west of Jalapa, is reported as showing signs of renewed activity while the volcano San Miguel is still belching smoke and lava. Official advices apparently confirm earlier reports of terrific loss of life. It is said that in some villages only a handful of the population remains.

MURDERED IN REVENGE

MEXICAN BANDITS WHO ABDUCTED BOWLES AND RONEY THOUGHT THEY WERE PAYMASTERS FOR OIL CO.

(Special Service to Glendale Evening News)

MEXICO CITY, Jan. 10.—Official dispatches from Tuxtam tonight indicated that the murders of the Americans Bowles and Roney occurred at La Playa north of Vera Cruz.

The bandits, it is said, thought the Americans were paymasters for an oil company and carried the men into the hills in this belief. When the bandits discovered their error, according to the dispatch, they killed the Americans in revenge for the miscarriage of their plans. Federal troops, it was said, were in close pursuit of the bandits and their capture was believed to be imminent. The government has started the collection of evidence in regard to the murders in order to answer the protest of American State Department.

FOOTBALL BANQUET

MEMBERS OF GIRLS' LEAGUE HANDSOMELY ENTERTAIN ATHLETES

One of the big functions which is an annual event at Glendale Union High School and in which members of the Girls' League are hostesses, came off Friday evening in the school cafeteria when the boys of the football team and their friends, members of the High School Board of Trustees, and male members of the faculty, were entertained with a delicious dinner prepared by members of the Domestic Science Department under the supervision of their instructor, Miss Ellen Hanson.

Covers were laid for thirty-eight. The tables were beautifully decorated in the school colors—black and red—and with Chinese lilies for floral embellishment. Place cards took the form of tiny footballs. The feast opened with a fruit cocktail which was followed by a meat course with accessories, and a dessert of ice cream and cake.

It was under the general direction of Miss Harriet Barnes, president of the Girls' League, who was assisted in serving by Misses Mary Logan, Ruby Stone, Virginia Chaplin, Helen Beach, Eva Green and Kathleen Campbell. The girls who assisted in the preparation of the dinner were: Misses Esther Black, Leota Webster and Eltha Harding.

Mr. Ferguson, head of the Mathematics Department, acted as toastmaster to the general satisfaction of all present, introducing those who responded to toasts with apt remarks which melted all the ice of formality. Besides the team of the present year, the manager and captain of last year's team, Russell Tummell and Tom McIvor, were present as guests. The opening toast by Kenneth Wilde, captain of the organization, was "To the Team." Stewart McMillan's toast was to Mr. Hay. (Continued on Page 6)

CERRITOS P. T. A.

The speaker at the Cerritos Avenue Parent-Teacher Association Thursday afternoon was C. L. McKesson, former mayor of Colorado Springs, who talked on "Better Thinking." Vocal numbers were furnished by some of the children of the first grade who sang very sweetly, and instrumental numbers by pupils of the eighth grade.

Light refreshments were served following the program, and a business session was held at which plans for the "Fathers' Night," to be given before long in the K. P. Hall, were discussed.

COMPLICATED MOVES

The constant changing hands of residence property in Glendale causes some odd experiences in moving. F. E. Dutcher bought J. H. Walker's place at 414 Arden Avenue because he had to move from where he lived on East Wilson Avenue on account of its being sold. The Walkers own a house just west of the place they sold and it was rented by Ed Owen. The latter could find no place to move into until today, so that held up Walkers, Dutcher and the family that was to move into where the Dutchers live. All the moves will be made next week.

COLORADO P. T. A.

Members of the Colorado Parent-Teacher Association enjoyed a meeting Thursday afternoon at which they were delightfully entertained by pupils of the school, the program including a Christmas song by eleven little girls of the third grade. In a playette entitled "Mother Goose's Christmas Party," twenty children took part, little Winifred Anderson having the role of Mother Goose. There was a saxophone solo by Edwin Cline of the sixth grade, his mother furnishing the piano accompaniment. Robert McReynolds of the sixth grade performed a piano solo, and a piano duet was given by Rebecca Grant and Shirley Preston. Last but not least upon the juvenile program was the "Bird's Christmas Carol," given by the fourth and fifth grades.

The addresses of the afternoon were made by Mrs. George U. Moyle who spoke on "A Better High School," and Mrs. A. A. Barton, president of the P. T. A. Federation, who made an excellent plea for tree planting on Lincoln's Birthday.

The cup and saucer shower added many pretty ones to the P. T. A. equipment. Following the program simple refreshments were served and there was an exchange of social greetings.

PERSIA AT FIRST HAND

MIRZA AHMAD SCHIRAB, SCHOLAR OF ORIENT, ADDRESSES GLENDAL STUDENTS

Thursday morning at 11 o'clock students of Glendale Union High were given a rare treat in being addressed by a Persian scholar, Mirza Ahmad Schirab, a personal friend of Mrs. Cline of this city, who persuaded him to spare a little time during his brief stay in Southern California to give this talk in Glendale. He is a man of fine education and agreeable address with a considerable fund of humor with which he enlivened the facts presented, giving the boys and girls quite an intimate view of Persian life and customs. He told a number of incidents in connection with his visit. (Continued on Page 3)

MASONIC DOINGS

Glendale lodges appear to be sharing in the revived interest in Masonry, which is manifest everywhere. At the Blue Lodge meeting in this city Tuesday night, eighteen petitions were considered, and reports showed that one of the Los Angeles lodges had received 62 petitions, another 42.

Knights Templars are making big preparations for their grand annual ball which will be held the latter part of the month and will be a full dress affair with the Knights in full uniform. In its way it will correspond with the Army and Navy ball which is such an event in Washington, D. C.

MRS. LETTON SELLS HOME

Mrs. W. A. Letton has sold her place at 616 Orange Grove Avenue to Mr. Sifers, who recently came here from Huntington Park to assist Dr. Harrower in his publishing business. Mrs. Letton and Catherine will go to Long Beach next week for a brief visit, then go to Lamar, Mo., and Oklahoma City, Okla., to spend the summer with her relatives and her husband's. She expects to return to Glendale next fall, as she says she would rather live here than any other place on earth. Mr. Letton, who is managing a large truck business at Holbrook, Arizona, will join her and Catherine in the East, if his business will permit. Mr. Letton was formerly a partner in the Scovern, Letton & Frey undertaking business in Glendale.

FORMER RESIDENTS RETURN

Quite a number of residence changes have taken place on Belmont Street. For instance, Richard Addison and family have returned to their home on that street after an absence of nine years, during which they have been residing at Three Rivers, Quebec. Richard Addison is a son of Mr. and Mrs. Thomas Addison of 130 North Belmont Street. His brother and sister-in-law, Mr. and Mrs. J. Addison, who have been living at Windsor, Province of Ontario, Canada, have also returned and taken possession of their home on Belmont, in which Mr. and Mrs. Jeter have been living. Property adjoining the T. H. Addisons has recently been sold to a Mr. Hale, who with his family has just taken possession.

MILFORD STREET CARD CLUB

Mrs. W. N. Rathbun of 318 Patterson Avenue was the hostess who entertained members of the Milford Street Card Club at their regular meeting Friday afternoon. The first prize was won by Mrs. E. L. Young, a handsome embroidered towel, the consolation prize by Mrs. McPherson—fancy shoe trees. The full membership was present and included: Mesdames Southard, Fletcher, Thompson, Brummel, Heustis, J. R. White, Vinton, Young, Hosford, Lepelman, McPherson, and the hostess, Mrs. McPherson will entertain at the next meeting.

BACK TO GLENDAL

J. E. Audet and family, who formerly owned the place at 439 Vine Street, selling it a year ago to Joe's brother, G. C., and moving to Daggett, have returned to Glendale to live. They have bought the small house at 449 Vine Street and will move it to the front, then build an addition to it. They are mighty glad to be residents of Glendale again.

FUNERAL OF W. W. RAMSAY

Funeral services for the late W. W. Ramsay will be held at the Ramsay home at 137 South Adams Street Monday afternoon at 2 o'clock.

WEAKNESS IN COUNTRY NEWSPAPER BUSINESS METHODS

Since time immemorial the average country newspaper publisher has been lax in putting into effect good business practices. The usual plan of the publisher has been to make a living as best he could regardless of from what source the money was forthcoming. Instead of organizing his business properly and making a charge for all space that would not be considered occupied by purely news reading matter he felt the most important thing was to get his columns filled with something. His shortsightedness allowed him to accept without charge what would be termed advertising reading matter that he might be saved the time and trouble of preparing real worth-while news to fill the space.

Of course the compositor had to be paid for his time, the pressman's time must be paid and then there was the paper and ink bill to be met and the money that was not forthcoming for the space that should be paid-for-space had to be made up in some way. So when the county, state and national political campaigns opened and candidates were wishing to make all kinds of promises to the people, this man, lax in regular business methods, was ready for a money consideration to give the candidate, good, bad or indifferent, representation—any kind he would pay for.

This one instance mentioned is only a sample of his business methods at all times providing he was able to meet his financial obligations at all. The man in business, whether it be professional, mercantile or publishing a country newspaper must carry out systematic business methods if he keeps himself in a position to treat everybody fairly. The time has come when only carefully planned and fairly executed business methods will win in business.

It's upon this plan the Glendale Evening News is organized and will continue. It is not anxious for business today only or for tomorrow, next week or next month, but it wishes to so conduct its business that it can merit the patronage of the people of the community today and tomorrow and for years to come.

The business concern now-a-days that is worth recognition is one that is organized upon thoroughly reliable business principles. The one that is not, will not and cannot give service to the people.

ANNOUNCEMENTS

ADVERTISEMENTS

PRESBYTERIAN CHURCH
"Faith—Cure. Co-operation. A Poulitice of Figs." Sermon topic for Sunday evening, 7:30. See special ad. Morning worship 11 o'clock, sermon topic, "The Beatific Vision." Bowman. 7:30, evening service, subject, "Moral Lame-ness and its Cure." Doors open each hour of the day for rest, meditation and prayer. Each and every one welcome. This church is set for the defence of the Gospel; is a home for the churchless, a refuge for the heart-weary and a way sin-laden souls may find a Saviour. Come, you are welcome.

CHRISTIAN CHURCH

Preaching both morning and evening by the minister. Topics: "The Beggar's Surprise," "A Tour of the Centuries." Communion and morning worship at 10:30. Evening service at 7:30. Clifford A. Cole, minister.

NOTICE TO THE PUBLIC

We, the members of the board of directors of The Glendale Memorial Hospital, wish to take advantage of this opportunity to correct false statements being made by some persons who are opposed to this new hospital. They are circulating stories or propaganda to the effect that Dr. Young is through his relatives and associates, going to control the entire workings of the institution, also that Dr. Young is to be house physician for a period of five years, etc. So in fairness to Dr. Young and the citizens of Glendale, we want to state that these stories are unfounded. There has not been any stock sold and no sale of stock arranged for.

The policy of this institution will be to give every physician a square deal, showing no preference. The entire stock issue will be sold to the citizens of Glendale who are interested in the development of this city and they in turn can elect their board of directors who will have full control of the institution.

Yours very truly,
Glendale Memorial Hospital.
Dr. J. A. McNaughton.
Roy L. Kent.
A. L. Baird.
Dan Campbell.
Spencer Robinson.

I. O. O. F.

An oyster supper and entertainment will be given Thursday evening, January 15, 1920 at 8:30 o'clock at the I. O. O. F. Hall, 111 1/2 East Broadway, by the Glendale Lodge of Odd Fellows. A musical program will follow supper. Tickets 25c. A good time for all. Come and bring your friends.

GIFTED READER

Next Tuesday evening, at the High School, The Glendale Teachers' Club will present Marion Craig Wentworth of the University Extension. Mrs. Craig is well known as the author of "War Brides." She will give "The Midnight Meeting at Versailles," "The Master Builder," and "The Sunken Bell." Admission to those holding season tickets. Single admission 25 and 50 cents.

ANOTHER MASS MEETING

At a meeting of the Advisory Committee on the high school bonds held last evening, arrangements were made for a mass meeting January 16, 1920, at 8 o'clock at the High School at which time a full report of the committee's activities will be made and recommendations presented. MRS. A. A. BARTON, Secretary of Committee.

INTERESTING DECISION

In response to a letter from the Cypress Lawn Cemetery, San Francisco, relative to vendors on the state highway in front of Cypress Lawn Cemetery in San Mateo county, the commission stated that it is not possible for the commission to delegate to the cemetery superintendent or its vice president authority to keep the thoroughfare cleared of vendors, as the police powers over state highways remain in the local authorities, and it is necessary to depend upon their co-operation in such matters.

EL PORTAL-YOSEMITE HIGHWAY

Motorists will be interested in the announcement that the State Highway engineer has been instructed to make all necessary preparations to construct the State Highway between El Portal and the Yosemite National Park, a length of about 1.28 miles. The work will be promptly prosecuted by day labor, in order that connection may be made with the Park road, which is already constructed, so that the public may have the use of the same during the season of 1920.

LICENSE PLATES

AUTO CLUB EMPOWERED TO HANDLE RENEWALS FOR CLUB MEMBERS

Much inquiry has arisen in this locality regarding the applications for renewals of motor vehicle license and for the securing of new 1920 license plates, particularly in regard to what the thousands of members of the Automobile Club of Southern California should do in applying for renewals.

This was settled yesterday by the Auto Club itself when it sent out the following notice to all members and non-members of the organization.

Excepting in the city and county of Los Angeles, the automobile owners of Southern California must make their applications for renewals and license plates direct to the Motor Vehicle Department office in Los Angeles. This applies to those who belong to the club, as well as to those who do not.

In the immediate vicinity of the Motor Vehicle Department, where deliveries of license plates may be secured by personal call, the Auto Club is empowered to handle same for club members, but sections distant from the Motor Vehicle Department would necessarily have to handle the transaction by mail anyway, and so the quickest possible means is direct with the Motor Vehicle Department offices by mail, as provisions have been made there for this work.

Motorists are advised to figure out accurately the amount they must send in, counting which quarter they took out their last year's license. All Automobile club branch offices will assist in giving advice whenever called upon.

LAYOUTS

The California Highway Commission has instructed the Highway engineer to proceed with the laying out and making of estimates for the construction of the following sections of state highway:

In Fresno County between Oil King School and Huron Road, a distance of 12 miles.

In Riverside County between northeast corner of Section 6, Township 7 S, range E, S. B. B. & M and the southerly boundary, a distance of 14.33 miles.

In Imperial County between Gravel Wash and northerly boundary, a distance of 8.33 miles.

In Imperial County between Tule Wash and Gravel Wash, a distance of 6.53 miles.

PERSIA AT FIRST HAND

(Continued from Page 1)
tion with the capture of Jerusalem by General Allenby, which he was so fortunate as to witness. He referred to an ancient prophecy current among the people that the Turks would lose control when the waters of the Nile reached Jerusalem, and the fact that one of the first things the British did was to pipe into the city a fresh water supply, was interpreted as a coming to pass of that forecast of the future. Before that time the city was dependent on water collected during the rainy season and stored in cisterns which became filled with impurities which caused epidemics of disease.

He declared we could hardly conceive the desert waste of the greater part of Persia. The soil is fine and it is the sport of many sand storms. There may be a heaped up mountain of it in a certain place one day and the next storm may deposit it one hundred miles away. The lack of a water supply and of transportation across the sandy wastes were factors which increased the difficulties of the British expedition. It was left to an American Yankee to devise the plans of stretching chicken wire across it and letting the automobiles run on that. After they had secured a means of transporting supplies by auto, the British were able to build a railroad to the city.

In explaining their modes of life and customs he told of finding it nec-

Do You Know Hudson

But Through Sheer Merit Alone Essex Made Its Thirty Million Dollar Sales Record Builds the Essex?

Essex success has not been accidental. No one doubts its right to the position it holds.

On the Cincinnati Speedway, a stock chassis Essex set the world 50-hour endurance mark, of 3037 miles, under American Automobile Association supervision. Another stock Essex holds the unequalled 24-hour road mark of 1061 miles.

But how many know why Essex in its first year revealed qualities more mature, more evident of the influence of long experience, than is commonly found in cars even in their third and fourth year.

You will recall the Essex was announced one year ago without one word as to the identity of its builders. Not a claim was made for its performance.

You were asked to go look at it, take a ride and form your own opinion. The Essex was required to speak for itself.

Now that it has established itself, it is revealed why Essex has all the qualities of cars of long development.

Was Designed by Hudson Engineers

They conceived it as they developed the Super-Six. All they learned about endurance, they incorporated in the Essex.

They gave to the Essex the power that has made it famous in all quarters. Its speed is the result of what had been learned in making the Super-Six winner of all worth while speed records.

The Essex can never be all that the Super-Six is for they are totally different types.

But the Essex does bring quality and performance to a class field that was unknown.

The former owners of large costly cars that have adopted the Essex have not been Hudson users. They have come from other cars, cars that fall short of the Super-Six in all particulars save size and cost.

The Essex appeals to such users because of its nimbleness. They like the way its performance compares with that of the Super-Six. You can see this on every hand. The two cars in any community that are most prominent because of their performance ability are the Hudson Super-Six and the Essex.

Essex Did Not Need Hudson's Endorsement

Think of the advantages Essex has had. What ordinarily would have required years to perfect was made possible in the very first model.

That is why 20,000 are now running, why more than \$30,000,000.00 was paid for Essex cars in ten months.

You have not needed the Hudson endorsement to understand Essex performance.

Essex has won its own way. Hudson gave it full benefit of the experience of its engineers and the ability of its manufacturing organization. Its name was not needed.

Now Hudson takes the same pride in acknowledging its kinship to Essex that a father might in speaking of his son who on his own account had made good.

New principles in tire building

THE Thermoid Crolide Compound Tire is made by the same company which makes the famous Thermoid Hydraulic Compressed Brake Lining.

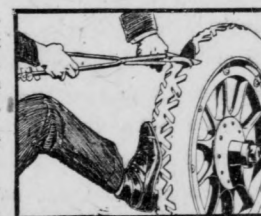

It is a rubber-and-fabric tire—but made in a new way, of a non-porous rubber compound.

Crolide—and what it does to rubber

Average rubber loses much of its original strength and elasticity

during hard service. Crolide Compound Rubber stays water-tight indefinitely because the small pores are sealed up.

Not only does this new substance, Crolide, increase toughness 50% to 200%, but it increases elasticity stretches to 7% inches.

You can't pull the tread off a Thermoid Tire

Thermoid Crolide Compound Tires will give you extra mileage and satisfaction. The guarantee protects you. 6000 miles guaranteed (Ford Sizes 7500).

DEMAND FOR STARTERS

FORD MOTOR COMPANY NOW
MANUFACTURING 3000
A DAY

Though manufacturing starting units for their cars only for a year so great has been the demand for Ford cars equipped with starters and so great are the facilities of the Ford plant, that starting units have been turned out of the factory at a rate that is astounding.

In Los Angeles alone, with hundreds of cars that are shipped through the local branch of the Ford Motor Company, the demand is tremendous, according to B. L. Graves, local manager. The starting units are shipped into the city in carload lots. One of the big shipments arrived at the plant last week.

All of the new Ford cars are now equipped with the special starting units that are being manufactured by the Ford Company especially for its own car. A number of cars were turned out during the year, made especially so that they might be equipped with the new starter, while it was in the process of being tested and improved and these cars also may be equipped with the new starters. The owners who desire them may have them installed by driving their cars to their dealers.

The new starting unit consists of a starting motor, generator, storage battery, charging indicator and lights with the necessary wiring equipment. The new lights are equipped with dimmers, so necessary under many state laws.

Although it wasn't long ago that the Ford Company did not manufacture starters, today the company manufactures 3000 units a day, while its nearest competitor manufactures, after years in the business,

LOOK TO THE LEFT

HUNDREDS OF ACCIDENTS CAUSED BY THIS FORM OF CARELESSNESS

Mr. Motorist, do you always look to the left when you drive away from the side of the road or the curb?

This is one of the most important features of the Automobile Club's new "safety primarily" campaign and is emphasized in its latest bulletin on the subject.

So when you leave the curb to enter traffic again, be sure to look to the left, and behind you to see if the street or road is clear. Too many drivers sail away, says the club, without giving the man behind a thought.

Added testimony is received to this effect from E. F. Hammond, a club member of San Diego county, who states that hundreds of serious accidents, according to statistics, are caused by this particular form of carelessness every month. Only two out of ten women drivers look, and only three out of ten men, he says.

only 1000 starters a day. Long ago, according to Mr. Graves, Mr. Ford saw the necessity of starters and his engineers began experiments. These experiments lasted seven years before they found the starter they believed could be manufactured economically and still give the best of service.

The product was at last perfected in time for use in the war, when it was installed in 15,000 three-ton tanks, constructed with Ford motors. The service the starters gave, convinced Mr. Ford of their strength and worth, and as a result he started the manufacture with his characteristic progressiveness. So great

Ford

THE UNIVERSAL CAR

Ford Starters Now Available

Many Ford cars have been sold recently which were built to have the self-starter installed when they were available.

We now have several thousand of these starters here and recent purchasers of Ford cars can now have the starters installed by their Ford dealer any time they desire.

This starter has been perfected after exhaustive tests covering a period of several years. It is not an experiment but a thoroughly practical, dependable, guaranteed electric starter built by the Ford Motor Company with the same honest care and precision that has made the Ford car the most popular car in the world.

New Ford cars may be purchased with or without the starter as you prefer.

BROKEN GLASS

SPECIAL CAR PROVIDED FOR
CLEARING STREETS AND
HIGHWAYS

For the first time in the history of motoring in the United States, a special car has been provided for the purpose of clearing streets and highways of broken glass.

This innovation is due to the Automobile Club of Southern California, through which organization hundreds of complaints have been received from auto drivers that their tires have been cut to ribbons by broken bottles and headlight glass on the highways.

This car, specially designed for the club, will operate first on the roads in the vicinity of Los Angeles, and on the city streets. An average of sixteen telephone calls are received

daily at the Los Angeles headquarters of the organization reporting "glass" on certain streets or roads. Up until this time the club has been powerless to act, but with the new car ready for just such emergencies, it will be sent at once to the scene of trouble and the glass will be swept into special receptacles for that purpose.

Since July 1, the amount of broken glass on the roads has increased at an alarming rate, due, say the authorities, to inhibiting motorists who take their "cellar stock" out on joyrides with them and then cast the empty bottles where they list. Milkmen are also blamed for much glass on the streets of Southern California cities.

PANSY CULTURE

Fifty thousand pansy plants on a plot of ground 40x100 feet. It does not seem possible, yet this can be seen any day along Verdugo Road, just north of Colorado, where M. Plaschil started a pansy garden two years ago. It takes from four to six months to bring a pansy plant from the seed to full bloom, the time depending on the season when the seed is put in the ground. A hot bed is not necessary, ordinary fertilized

soil bringing the plants along as fast as they should grow. Twenty-five thousand plants for which the seed was sown in October are being set out now by Mr. Plaschil. These will begin blooming in March and then the ground will be hidden by a mass of green leaves and pansies of every shade imaginable, from pure white to velvety black. The plants are set out in beds about 15 feet long and three and one-half feet wide. They are set three inches apart and each bed has ten rows, four inches apart.

They are not irrigated, but sprinkled. Transplanting can be done at any stage of the plant's life, even when it is in full bloom. Ordinary soil, fertilized regularly just as if it were for the raising of vegetables, will produce the finest of pansies if the right methods are used. And there is certainly no more beautiful sight than a pansy bed in full bloom, especially when many shades of coloring are seen. The plants will bloom steadily for a year in this climate.

MERIT MAKES IT POPULAR

Typical owners of this finely proportioned Coupé invariably will tell you that they know one four-passenger automobile that delivers highly efficient all-year transportation with comfort at minimum cost of ownership, operation and maintenance.

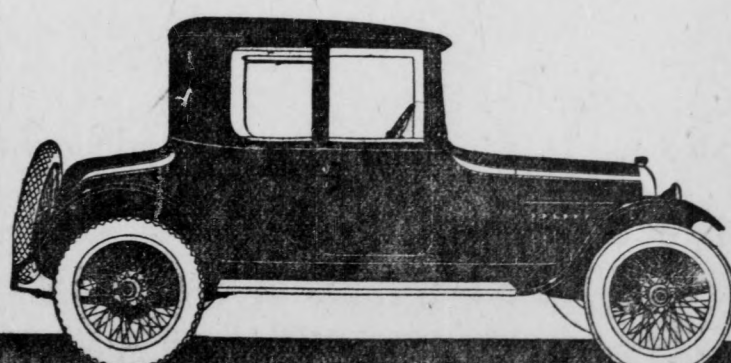

Touring Car, \$1250; Roadster, \$1250; Coupe, \$2045; Sedan, \$2045. F. O. B. Glendale, Calif. Additional for wire wheel equipment, \$75.

OAKLAND
SENSIBLE SIX

TYPEWRITERS FROM HOWITZERS

The metamorphosis from swords to ploughshares is almost a literal fact in the Krupp munitions works, according to a recent dispatch from The Hague.

A Dutch writer who visited those great factories at Essen found hundreds of howitzer carriages being melted down to be remade into agricultural implements. The big projectile-pressing machinery has been re-adjusted for the manufacture of rolling stock. The grounds formerly used for testing the engines of war are now used for experiments with farm machinery of new types, made from the destroyed cannon.

Engineers and workmen who formerly devoted their skill to perfecting the devices of destruction are now attacking such peaceful problems as improving typewriters and calculating machines.

It is a wise use to make of the old machinery. Typewriters, farm implements and calculating machines will indeed be mightier than swords and howitzers in building up a new Germany, wiser, saner and happier than the Germany of old.

JESSE'S EXPRESS

Glendale 75 109 B E. Broadway

Traffic Officer Peter Marra, on duty at a busy corner in Springfield, Ill., won applause by holding up a big touring car just in time to save a little fuzzy black kitten which was paralyzed with fear.

Personals

Mrs. B. W. Bradbury of 328 West Colorado Street is visiting at the home of her mother, Mrs. Brauner, in Los Angeles.

Friends of Mr. and Mrs. Frank L. Muhleman will be glad to know that their infant son, Frank L., Jr., who has been seriously ill, is very much better.

Miss Clara Midcalf and her brother, Holman Midcalf, were dinner guests Thursday of Mrs. George Lyons on Riverdale Drive, remaining for a pleasant social evening.

Mrs. L. A. Oliver, mother of Irving H. Oliver of East Acacia Avenue, left Monday night for the East. She will stop in Cleveland for a few days and will then go on to New Jersey.

W. C. Bradley of 523 Oak Street has been home from El Segundo the past ten days taking a needed rest from his labors for the Standard Oil Company and combatting a severe cold.

H. A. Goldsberry of 610 Orange Grove Avenue is able to be up after a two weeks' illness with pneumonia, and expects to go back to his work with the American Railway Express Company next Monday.

The Fox-Woodsum Lumber Company has the concrete foundations in for a solid building half a block long and containing 21 sheds for the storing of finish lumber, just west of the office building.

Mrs. L. P. Tronsier of 559 Oak Street is circulating a petition in her neighborhood asking that the proposed industrial district be not located on the 10-acre tract just north of Colorado along the San Fernando Road.

J. M. Thompson and wife of Lamar, Mo., who have been spending a few weeks with their niece, Mrs. W. R. Letton, at 616 Orange Grove Avenue, will start for Tampa, Fla., next Monday to spend the balance of the winter.

Geo. E. Clayton and wife expect to start next Wednesday for Detroit, Mich., the old home, to enjoy a brief visit with relatives and the friends of former days. They will visit the great annual auto show in Chicago before returning home.

Mr. and Mrs. E. L. Young have returned from a trip of several days' duration to San Diego. During their absence Mrs. Young's mother, Mrs. Helen Sadler of Santa Monica, was the guest of the children in the Young family. She returned to Santa Monica Friday.

Harry W. Chase and H. S. Burn have some dandy bargains in real estate, but they say the six-room bungalow on lot 54x160, with garage, fruit, etc., advertised in this paper at \$3000 would be too much like giving the property away. The price on this fine modern home is \$3800, and it is a bargain at that.

Mrs. J. M. Border of 217 North Louise Street returned Monday evening from a two weeks' visit in McFarland with her sister, Mrs. P. M. Peterson, with whom it is her custom to spend the holidays. She enjoyed the trip, although the weather man handed out a great deal of fog while she was there.

Henry A. Michel of North Columbus Avenue, this city, has prepared the plans and will erect a two-story frame and plaster apartment building at 912-14 South Dacotah Street for his own personal investment. Its foundation will be 34x36 and it will contain four apartments of four rooms and bath each, with modern equipment at an estimated cost of \$10,000.

Elmore Wheaton and wife, who lived on 41st Street in Los Angeles have recently bought a home at 519 Fairmont. They will move in next Monday and Thos. Philippi, the present occupant of the place, will move his family into a garage he has just had completed in Burbank. This they will occupy till the house is built. Mr. Philippi works in the Moreland factory.

H. M. Warner has just bought, through J. F. Chandler, the property owned by Dr. McPherson at 126 South Jackson Street. There is a modern Swiss chalet on the front of the lot and a four-room house on the rear. Mr. Warner is a Massachusetts man who came to Glendale about two years ago and located at 145 South Pacific Avenue. He and his wife are spending the winter in Venice, but have decided to own a home in Glendale.

Commenting on the unusually cold weather, H. E. Bartlett stated today that no damage has yet been sustained by reason of frost in Glendale. While the mercury has descended below the freezing line, it has been for too short a time to register damage. News which reached him from the upper part of the valley was to the effect that 40 degrees was the lowest temperature experienced there thus far. He is somewhat disappointed over the "petering out" of promised rains lately and fears he may have a dry winter, although he admits that March usually tells the story as far as rainfall is concerned. He is very much pleased with the present condition of the wash and declares that all possibility of floods is now eliminated.

The U. S. Gov't.

recently made the following statements in "The Financial News":

"Out of every twenty men, nineteen fail to provide either for their old age or for their families at death.

Ninety per cent of children who enter school at age six have to stop before completing the 8th grade, to go to work.

Thirty-five per cent of the widows of the country are in want.

There must surely be a place somewhere over there where this great group of departed husbands can reflect upon the misery they have inflicted upon the ones they promised faithfully to protect!

Is there any lesson in this for YOU? A Provident Endowment or Income Policy will secure you against such a possibility at the least cost and in the surest way. Let me prove this to you.

W. B. Kirk

Question

?

Is it necessary to have Public Schools, Colleges and Universities? If it is necessary, why is it? This question will be answered at the

MEN'S BIBLE CLASS

East Broadway and Cedar Street

Sunday Morning, JAN. 11th

The Class is closing a very interesting study of the history of the nations as recorded in the Old and New Testaments.

The study Sunday morning will deal with the manner in which the peoples of the nations have abused their bodies and abused the sex relations.

You Should Visit This Bible Class Tomorrow

Mr. and Mrs. Albert Carney who recently came to California from Ia., are guests in the home of Dan Carney on Harvard Street. They are so delighted with the country that they have succumbed to its charm and bought a home in Long Beach.

John W. Railsback, who sold his home at 517 West Elk Avenue last April and, with his wife, son Ralph and daughter Eileen, moved to the northern part of the state to try ranching, is back again in the Southland and is stopping temporarily in Los Angeles.

Mrs. H. C. Nicholas of 337 West Wilson Avenue, who has been in the Sanitarium for four weeks, recovering from a very critical operation for appendicitis, expected to be at home by now, but a relapse condemns her to three weeks' further confinement. Mr. and Mrs. Nicholas sold their home at 524 Patterson Avenue and bought at 337 West Lexington Drive. The day before they were to move Mrs. Nicholas was taken to the sanitarium for the operation, so has never been in the new home.

A. Haun has the foundation in for a six-room bungalow at 327 Ivy Street, to cost \$3500.

In the very southmost corner of the city, at 1910 Vassar Street, Wm. A. Price has commenced the erection of a five-room house. The cost of the house, garage and other out-buildings will be close to \$3000.

At 123 South Adams Street W. G. Boyd has just commenced the erection of a five-room bungalow, with built-in effects and superior finish inside and out that will bring the cost up to \$3500.

Mr. and Mrs. George E. Murphy of North Brand Boulevard have just returned from an extended business and pleasure trip in which they visited Northern California, Colorado, Kansas, Missouri, Oklahoma, Ohio, New York, Pennsylvania, District of Columbia and Texas.

Albert Mills, who put up a garage on the rear end of his lot at the northeast corner of Vine Street and Pacific Avenue the last of December, has taken out a permit for the erection of a five-room house, to cost \$2000. It will be on the front of the lot, facing on Vine Street.

J. S. Wickstrum and wife and son, Donald, of Riverton, Neb., arrived this week to visit old friends in Glendale. Dr. H. C. Smith and wife of 1145 East California Avenue. They hope to spend three or four months here.

E. H. Harding and family, who have been living at 707 Orange Grove Avenue for some time past and were forced to move by the usual cause, the sale of the property they lived in, have bought a home in Burbank and will move next week. There being no houses in Glendale to rent necessitated the change.

Patterson Avenue, only three blocks long, extending from Central Avenue west, already has more than a dozen new houses in all stages of progress, from foundations recently laid to completed buildings. Still another is to be commenced next week. It is for H. W. Wood, at No. 457, and will be of five rooms. A garage is included in the permit, which is for \$2600.

Mr. and Mrs. Geo. E. Jeffries of 330 Salem Street were pleasantly surprised the first of the week by a visit from Mr. Jeffries' youngest brother, Alvin, who has been in railroad work in Oklahoma for a number of years. He had just returned from a visit to the old home in Ohio and was enabled to give his brother news of the relatives and friends back there.

Friends of Mr. and Mrs. Glen Craig and little Pauline Craig, who left Glendale a short time before Christmas for their new home at Exeter, have had letters in which they tell of their contentment with their new location and a pleasant holiday season, although they missed their Glendale friends. They were not alone, however, as Mr. and Mrs. Louis Coule, brother-in-law and sister of Mrs. Craig, also have a ranch at Exeter.

WHAT ELSE?

Turpentine Rusk, manager of the "Miss Tarrie Diddle" company, tore his scanty hair with his copious fingers.

"The show's a failure, a flivver, a mess," he wailed. "We've done everything in our power to bring it back to life—what else can we do? We've changed the leading woman from a brunette into a blonde with a seventy-five dollar wig. We've hired a ladies' Hawaiian orchestra to play in shredded wheat costumes. What else can we do?"

"It seems hopeless—hopeless!" agreed Flippingham Bollweevil, the leading man. "We've taken on a troupe of twenty children to walk across the stage dressed as little chickens in the third act. We've added Sergeant Tweezer and his famous trained cooties. What else can we do?"

"I have it!" cried the manager. "You have it? You mean you've got it?" exclaimed the leading man excitedly.

"Yes! We'll advertise all over town that there's not a single ticket left. In a few hours we'll be besieged by people trying to get a ticket by some hook or crook, just because they think they can't!"

And they did it and it worked like a charm. The show was saved!

GOING SOME!

Grizzly Biggers had been transported more free miles by Kansas cyclones than any ten residents of the state. Grizzly and a hen house did a floating carpet of Bagdad in duo one merry morning, and landed in the river. The hen house perished. The latest blast at Pummelton carried Grizzly some three miles and he and some other residents and trees and wagon tops and automobiles and Fords were splattered all over the landscape. An evangelist named Howarth made a tour of comfort and found Grizzly white but conscious trying to locate a familiar spot.

"My friend," said the evangelist, "you are alive and safe, and that is surely proof that the Lord was with you!"

"Well, Doc," said Grizzly, "if he was he sure was travelling some."

SAN FERNANDO VALLEY

'Tis a vale of wondrous beauty,
With the mountain peak in view
And the lovely flowers blooming
Nearly all the whole year through.

'Tis a place where trees seem happy,
Pepper branches hanging low
In a thousand graceful festoons
In the breeze swing to and fro.

And the friendly umbrella
With a beauty importrayed,
Lures the way-worn and the weary
To sit down beneath its shade.

And the gentle twilight breezes
In their murmurings seem to say,
"We have stolen wealth of perfume
From the flowers we've kissed to-day."

It's a picture long remembered,
Once we've had the glorious view
With the mountains' silver shadows
Up against the turquoise blue.

And the Jewel of the valley,
Glendale City, if you please,
Is a picture of contentment
With her homes among the trees.

And the friendship of the people
As they reach to grasp your hand
Makes one feel almost like feeling
He has reached the Promised Land.

—H. G. Claycomb.

"A CALL TO HEAVEN'S GATE"

When the Spaniard wandered into this beautiful vale,
With joy he exclaimed, "I've found Glendale!"
Enraptured he called with soul elate,
I have arrived at Heaven's Gate.

Surely I am greatly blessed,
I've found a dale in which to rest."
With prophetic sight of the ancient seer,
He said, "Glendale would have no peer."

Just come out now and take a view,
You'll find his prophecy was true.
"A city of homes," of beauty rare,
A sweet retreat from toil and care.

I bid you come these houses to see,
Embossed with flower, vine and tree.
These beautiful homes denote repose,
Where the loved ones come when the day draws to a close.

Its balmy air has a beautiful tone,
And is brim full of pure ozone.
Its streets are smooth as polished glass,
Over which its many autos pass.

Its thousand autos daily run,
Out to business or for fun.
Its boulevards are wide and clean,
As any that you've ever seen.

Its waters refreshing like the nectar of old,
Which was the drink of the Gods, so we're told.

Pure and limpid flow from the mountain,
In whose heart bursts the crystal fountain.
Ringed by a chain of picturesque hills,
Fringing the horizon with variegated frills.

Come here and drive through the city at night,
This kaleidoscope will give you delight.
Our churches and schools here you will find,
Places for worship and training the mind.

If the family in evening some pleasure would seek,
The movies are making something new every week.
The business man in the city nearby
Breathes with relief, when the time draws nigh,

Though the hour may be a little late.
In a few short minutes he'll reach Heaven's Gate.
The old engineer who is nearing the last station,
Can find a home here of his entire approbation.

He may rest in peace and have no fear,
There are no open switches to run into here.
We bid the octogenarian from away-back East,
To come and partake of our climatic feast.

This charming city will lengthen your life,
When you have laid aside all commercial strife.
Come out and see this jeweled gate,
The finest there is in our great golden state.

The brave mariner, who has weathered life's gale
May find a calm haven in lovely Glendale.
—N. H. Palmer.
Jan. 7, 1920. 1136 E. Elk Ave.
Dedicated to my son, O. S. Palmer.

FOLLOW THE CROWD

Mr. Thomas Smith was burdened with rather a large family. He took them all to the movies. Being in a hurry to see that the seats had not been taken, he walked on in front of his offsprings. Suddenly a policeman laid a hefty fist on his shoulder and marched him off to the police station in spite of his entreaties. The only satisfaction he got out of the representative of the law was "I don't know exactly what I've took yer up for, but if yer waits a bit, I'll go back and find out what the crowd was following yer for."

FOOTBALL BANQUET

(Continued from Page 1)

hurst, coach of the team, who responded with a very nice little speech. Leland Wise toasted the Girls' League and Principal Moyse made an excellent general talk. An appreciative little speech was also made by Russell Tummell.

Following the banquet, officers for the coming year were elected, Bernard Dennison being made captain and Max Price manager.

The guest list included: Kenneth Wilde, Stewart McMillan, Max Price, John Worley, Ed Smith, Leland Wise, Victor Francy, Wesley Wright, Bernard and Roger Dennison, Floyd Herman, Lawrence Truitt, Harold Whitaker, Clayton Card, Jack Edwards, Fred Terxo, Bob White, Sherwood Ball, James Sherwood, Neil McIvor, James Adams, A. L. Ferguson, G. U. Moyse, Harry L. Howe, Irving H. Oliver, Elmer C. Richardson, George O. Lockwood, Hartley Shaw, Claud Pulliam, Dr. A. L. Bryant and Daniel Campbell.

GERMANY WANTS 100,000 SOLDIER POLICEMEN

(By John Graudenz)

BERLIN, (By Mail).—Germany proposes to have about 100,000 "Sicherheitspolizei"—literally, safety police—or soldier policemen, according to Wolfgang Heine, Prussian minister of Interior.

In a talk with the United Press, he explained that he, not Noske, evolved the idea of such a police system which is already organized in Berlin and which is being formed in other cities throughout Germany.

This police force looks like soldiers. It carries rifles, hand grenades, a policeman's billy. And, it travels in sets of four or five.

Its organization has been found effective, Heine explained, and he believed that the rest of the world, with the exception of France, was willing to have it maintained in view of the fact that it had proved its worth as a preventive against internal troubles.

"One of the results of the war," said the minister, "was the tremendous increase of criminals, a great number of whom possess rifles, revolvers and even machine guns. The old police failed badly on some occasions and some were, and are, killed every week."

The force has proved effective in dissolving illegal meetings and otherwise, said Heine. Most of the men are about 24 years of age, and are carefully selected for daring and reliability. Provisions are made for a certain amount of training of these men, and also it is arranged that, if they tire of police-soldiering, they can enter other lines of government activity.

"There are about 10,000 such police in Berlin now," said Heine. "Other groups are being formed throughout Germany. This will leave the regular army of 100,000 free to keep Bolshevism from spreading through the eastern border and to the rest of the world."

METHODISTS CAMPAIGN FOR 1,000,000 CONVERTS

NEW YORK, Jan. 10.—(United Press).—Something new in drives is on. The Methodist Episcopal church has opened a world-wide campaign for 1,000,000—converts, not dollars.

The new departure will last from now until June 20, 1920, and is for the avowed purpose of "re-stocking" the church with Christians—the leaders in the movement openly announcing the faith lost 60,000 communicants by reason of the war.

The campaign is said to be the most stupendous religious undertaking ever attempted by any creed. One feature of the campaign, it was pointed out, is the fact that it is not being managed by any individual, but by the whole denomination.

The quota of souls for workers in the United States to save has been placed at 800,000. The rest of the world is expected to convert the remaining 200,000.

U. S. HAS BIGGEST DRY DOCK

SEATTLE, Jan. 10.—(United Press).—A month ago Germany boasted of the largest drydock in the world.

But Bremerton, Wash., now has that distinction.

A giant shipbuilding drydock, the largest structure of its kind, has been dedicated at the naval station at Bremerton, on Puget Sound.

Launching of the United States ammunition ships Pyro and Nitro, constructed in the dock and the largest ever built in this yard, followed the dedicatory exercises.

The great dock is 950 feet long, 130 feet wide and 30 feet deep.

Advertise it, or advertise for it in the Evening News.
